You're my queen, you're my everything  
You're the one who makes my bell ring  
You're the only one I love  
You're my shining star above.  
I do anything for you  
Cause no one loves me like you do  
Please believe me, I don't lie  
Come on baby, don't be shy

You just want sex, you just love my body  
I want true love, that's what I'm longing for  
You just want sex, you just want my body  
Say it's just me that you adore

I love every inch of you  
But most of all because you , you  
I like your eyes, I love your smile  
You whole body makes me geil  
I want love is deep and true  
Not just a one night stand with you  
If you love me like you say  
Give me the feeling that you stay, more than a day

I must admit I like sex too  
Especially when I am with you  
When you love me all night long  
Feel the heat so deep and strong  
Try a little tenderness,  
Put more feeling in your kiss  
Think with your head not with your dick  
You ou naughty little sexy pig , you just want sex.
