Boy when you're with me i'm all fine
When you gone i can't help thinkin' something's wrong
'cause-
In all but spirit i'm alive
But you kill me from a distance when you're gone

Soon as i'm out of vision i'm out of mind,
Won't prove you're the kind of lover who reads my shy
Soon as i'm gone i'm out your head,
You can call from someone elses bed
Just break anybody's heart instead of mine

First you say you care
Sure baby yeah yeah
By the bullshit that you wear
This ain't a far affair, oh
When you're here with me
It's a sweet reality
But baby when you're gone
I know you do me wrong, oh

Boy i can't help but wonder why
You said that if we weren't together you would die
Well-
You started diggin' your on grave
The day i turned around and saw you look her way

Soon as you're out of vision you spend your time
Runnin' around pretending you're a single guy
You're runnin' out of lies each day
You find it harder and harder to explain
stop playing with my heart, it's getting tired

First you say you care
Sure baby yeah yeah
By the bullshit that you wear
This ain't a far affair, oh
When you're here with me
It's a sweet reality
But baby when you're gone
I know you do me wrong, oh

Do me wrong, when i'm gone
Do me wrong.... When i'm gone

A-E-I-O-U nothing baby
Long time gone since i've been your lady
All the time that you been away
You never had nothing good to say

I can't see why you think i'm waiting'
Life goes on while you're hesitatin'
Not even a reason why
I'll pack my bags and i'll say goodbye

A-E-I-O-U nothing baby
Long time gone since i've been your lady
All the time that you been away
You never had nothing good to say

I can't see why you think i'm waiting'
Life goes on while you're hesitatin'
Not even a reason why
I'll pack my bags and i'll say goodbye

First you say you care
Sure baby yeah yeah
By the bullshit that you wear
This ain't a far affair, oh
When you're here with me
It's a sweet reality
But baby when you're gone
I know you do me wrong, oh
