I know I shouldn't be doing this
Why can't I stop ?
Butterfly's, bloodrush, everything'd telling me to run
but I'm not
Only regret what you don't do
Why don't we do what we want to now ?
Don't give me time to back out

'Cause I don't wanna think about frikin up
Trying to pretend that we didn't do
What we're doing
I don't wanna think about
Giving up
Not tonight
I don't wanna think about anyone, anything, anyway

If there's a chance or break
I wanna smash into pieces
Let's make a big mistake
But I don't wanna think about it
I don't wanna think about it

My heart beats my head
And I'm letting it
Take me over
I got to keep going
Can't stop, can't sleep
Cause tomorrow I'll be sober
You only regret what you don't do
Why don't we do what we want to now ?
Don't give me time to back out

'Cause I don't wanna think about frikin up
Trying to pretend that we didn't do
What we're doing

I don't wanna think about
Giving up
Not tonight
I don't wanna think about anyone, anything, anyway

If there's a chance or break
I wanna smash into pieces
Let's make a big mistake
But I don't wanna think about it
I don't wanna think about it

Only regret what you don't do
Do, Do what you want to

I want to feel something
I've never felt before
And I don't care if it hurts
It's worth it

I want to be someone I've never been before
So I'm gonna run
I'm gonna close my eyes
I'm gonna jump into the fire
