"Think About It"

Visit "[Think About It](#)" on MotoLyrics.com

I, I know I shouldn't be doing this
Why can't I stop
Butterfly, blood rush, everything's telling me to run
But I'm not

You only regret what you don't do
Why don't we do what we want to now?
Don't give me time to back out

'Cause I don't wanna think about
Waking up, making up lies
Trying to pretend that we didn't do
What we're doing
I don't wanna think about
Real life, not tonight
I don't wanna think about
Anyone, anything, anyway

If there's a chance we'll break
I wanna smash into pieces
Let's make a big mistake
But I don't want to think about it
I don't wanna think about it

My heart beats my head
And I'm letting it take me over
I gotta keep going can't stop can't sleep
'Cause tomorrow I'll be sober

You only regret what you don't do
Why don't we do what we want to now
Don't give me time to back out

'Cause I don't wanna think about
Waking up, making up lies
Trying to pretend that we didn't do
What we're doing
I don't wanna think about
Real life, not tonight
I don't wanna think about
Anyone, anything, anyway

If there's a chance we'll break
I wanna smash into pieces
Let's make a big mistake
But I don't want to think about it
I don't wanna think about it

Only regret the things that you don't do
Do, do, do what you want to
Only regret the things that you don't do
Do, do, do what you want to

I wanna feel something
I've never felt before
And I don't care if hurts
It's worth it, yeah
I wanna be someone
I've never been before
So I'm gonna run
And I'm gonna close my eyes
I'm gonna jump into the fire

'Cause I don't wanna think about
Waking up, making up lies
Trying to pretend that we didn't do
What we're doing
I don't wanna think about
Real life, not tonight
I don't wanna think about
Anyone, anything, anyway

If there's a chance we'll break
I wanna smash into pieces
Let's make a big mistake
But I don't want to think about it
I don't wanna think about it

Only regret the things that you don't do
Do, do, do what you want to
Only regret the things that you don't do
Do, do
Let's do what we want to
