Sometimes I try sometimes I don't  
Sometimes the way I feel inside is gonna show  
You know we're all the same  
I know you're tired you try to talk  
But you think I don't hear you anymore  
Here it comes again  
But sometimes you just take it too far

You can shoot me down and call me names  
Scream until the neighbours all complain  
I know you'll tell your friends it's all my fault  
And I will take the blame

But give me back forever again  
Sometimes you try sometimes you don't  
Sometimes the way you feel inside is gonna show  
But some things never change  
So walk away and count to ten  
Say how you feel don't say that again  
We'll find another way  
'Cause you don't have to take it so far

You can shoot me down and call me names  
Scream until the neighbours all complain  
And I know you'll tell your friends it's all my fault  
And I will take the blame  
But give me back forever again

If feels like I'm breathing under water  
It feels like I'm watching my whole world crash  
And you can say you don't know if you love me  
But never that you never have

You can shoot me down and call me names  
Scream until the neighbors all complain  
I know you'll tell your friends it's all my fault  
And I will take the blame  
Just give me back forever again.
