Hey, don't you worry
Everything's alright you know
We're gonna be just fine
If the rain crashes down over you
I will love you dry
There is nobody in this world could ever take me away
From you
I am always by your side
If you need someone to guide you, dear
I'd like to try
Don't give up on something
You've never had before
I promise you this
You're the one I adore
Here it comes again
Feeling my soul, never want to let go
Here it comes again
Be at one with your love, as below so above
Here it comes again
Now love is flowing
Freer than a waterfall, beyond the edge of time
So bent at to the motion
Now we can fly, we can fly
And you know there's a reason
That we are who we are
I cannot resist
You're the one I adore
Here it comes again
Feeling my soul, never want to let go
Here it comes again
Be at one with your love, as below so above
Here it comes again
Just like there's always gonna be a place for you and
Me
A ship that we can sail on
Just like we fall ???
And everything was free at the end of some rainbow
Just like a needle and a gun, suffer in the sun, and
Not go runnin' in or done
And it's you I adore
Here it comes again
Feeling my soul, never want to let go

Here it comes again
Be at one with your love, as below so above
Here it comes again
Feeling my soul, never want to let go
Here it comes again
Be at one with your love, as below so above
Yeah, yeah
