Do you spend your life hiding in the shadows?  
Terrified of letting down your guard  
Do you fantasise of glorious tomorrows  
Come alive you're perfect as you are  
Careless lies will hurt you no more  
'til the angels cry and the music dies  
You and I will be protected  
'til this earth burns out and stops turning round  
I will keep you protected  
We're protected  
Walk away from those who bring you sorrow  
Take a chance I know you still believe  
Letting go of everything you can't control  
Open up the life you long to lead  
Precious heart unlock the door  
'til the angels cry and the music dies...  
Every moment you're affected  
By a light so divine  
From the darkness we're protected  
With the truth in our hearts we can shine  
'til the angels cry and the music dies...  
I'll always love you  
I'll always love you  
I'll always love you  
In this life we're protected  
We're protected  
I will keep you protected.
