Another hour slips away
And we try to say goodbye
So many reasons not to stay
So many feelings to deny

Tender eyes confess in me
Temptation makes me change my mind
Resisting you so hopelessly
Every time I try

Here comes the night
I feel desire take control
Here comes the night
(Here comes the night)
With every touch I'm letting go

A story starting to unfold
Can we solve this mystery?
I feel you look into my soul
Sending a message out to me

Your tender eyes confess in me
Temptation makes me change my mind
Resisting you so hopelessly
Every time I try

Here comes the night
I feel desire take control
Here comes the night
(Here comes the night)
With every touch I'm letting go

I remember all those broken dreams
They're not gonna stand in my way
No no, no no, no no
No, it's not always everything it seems
But I just can't, don't wanna walk away

[Incomprehensible] make me walk away
'Cause I don't wanna
Hey boy, here it comes

Here comes the night
(Here comes the night, here comes the night
Come on baby, come on do me right)
I feel desire take control

Here comes the night
(Here comes the night, here comes the night
Come on baby, come on do me right)
Every touch I'm letting go

Here comes the night
(Here comes the night, here comes the night
Come on baby, come on do me right)
I feel desire take control

Here comes the night
(Here comes the night, here comes the night
Come on baby, come on do me right)
Every touch I wanna let go

Here comes the night
(Here comes the night, here comes the night
Come on baby, come on do me right)
I feel desire takes control
