Wake up Mr. fantasy  
Get up from your manic dream  
Stand up face reality  
Fucked up from your nightmare screams

A lost hope, lost cause  
Just fade away  
Dissolve from all society  
You're scared and lost  
Entranced all alone  
Paranoid sick away from home

It's guys like this  
That lose their minds  
Freak-out snap kill mankind  
Depressed loser lost in space  
Living as a mutant race  
Reality out far away  
Lost from his every day  
Suicide not of his mind  
Not smart enough to take his life  
Shockified, dreadified, dementified, horrified  
Pleading, squealing, crying, dying  
Immobilized, intimidated, tremblized, terrorized
