Pick it up,
Off the floor, yeah
Feels unwanted
Now put it away, and
Brace yourself

Indulge in and out of loneliness
Leave a fever close behind

Able, able
Under tons of boulders
I'm willing and able
A willing enabler
But these boulders they do squeeze

Fever close behind

When we peek at the black hearts
Treasures we may find
Reminds us what's wise in losing our minds
Leave your mind behind

Able, able
Under tons of boulders
I'm willing and able
A willing enabler
But these boulders they do squeeze

Fever close behind
Ahh ahh ahh
Loneliness is mine
Ahh ahh ahh

Feel deceived
Fever close behind
Loneliness is mine
Fever close behind

Loneliness is mine
