Melissa Etheridge
"Meet Me In The Back"

I didn't say it
I didn't
I meant it
You know I meant it

Meet me in the back
Don't make me wait too long
I could change my mind
And tell you that it's wrong

So meet me in the back
Where the light don't shine
First show me yours
Maybe I'll show you mine

My hands are shaking
And my heart is beating fast
Is love worth making
When it can never last

So, meet me in the back
Don't make me wait too long
Baby, I could change my mind
And tell you that it's wrong

So, meet me in the back
Where the light don't shine
First show me yours
Maybe I'll show you mine

I'm gonna give directions
I'm gonna take it slow
But if I don't get protection
I will just say, 'No'

So, meet me in the back
Don't make me wait too long
Baby, I could change my mind
And tell you that it's wrong

So meet me in the back
Where the light don't shine

First show me yours
Maybe I'll show you mine

I can hear the music
Pounding through the walls
And to the beat of dancing
I will give you all

So, meet me in the back
Don't make me wait too long
Baby, I could change my mind
And tell you that it's wrong

So, meet me in the back
Where the light don't shine
First show me yours
Maybe I'll show you mine
