I'm not much on mystery  
Ah you gotta be careful what you dream  
I thought this might pass with time  
Yeah I thought I was satisfied  
Honey let me tell you I got a thing about you  
Let me tell you I got a thing about you  
And no matter what you say  
No matter what you do  
I, I, I got a thing about you  
I, I, I got a thing about you  
Somewhere deep in the middle of the night  
Oh lovers hold each other tight  
They whisper in their ancient ...???....  
Oh ...???... love they disappear  
Well  
Honey let me tell you I got a thing about you  
Let me tell you I got a thing about you  
And no matter what you say  
No matter what you do  
I, I, I got a thing about you  
I, I, I got a thing about you  
You hold some strange control over me  
You know that it's so wild it hypnotizes me  
Yeah  
Honey let me tell you I got a thing about you  
Let me tell you I got a thing about you  
And no matter what you say  
No matter what you do  
I, I, I got a thing about you  
I, I, I got a thing about you  
I got a thing about you  
Ah yes  
Oh baby yes I do  
Oh honey got a thing about you  
Oh baby got a thing about you  
I said ooh honey got a thing about you  
Yeah I got a thing, I got a thing about you  
I said oh girl I got a thing about you  
Yeah yeah I got a thing about you
