You think you got it all figured out and wrapped up
Driving in your little red car
You could drive all night around the city
But you won't get far

There's something there on the edge of your mirror
Something you've been hiding for years
If you take a chance if you just take a look
Maybe I can handle your fears

I'm tired of waking up shaking in the dark
Making up what you're gonna do
You can keep your pride you can keep your distance
I never wanted to get that from you
I've had enough of a tough situation
Driving me out of my mind
You can keep your pride and you can keep your
distance
I'm only wasting my time

Give me one good reason I should keep it up
You've got so many to spare
You keep it hot but you keep it so we're driving
It just ain't fair

You've got the jam down fired up emotions
I've got the three alarm blues
I can't get to you and you won't come to me
What would you suggest that I do

I'm tired of waking up shaking in the dark
Making up what you're gonna do
You can keep your pride you can keep your distance
I never wanted to get that from you
I've had enough of a tough situation
Driving me out of my mind
You can keep your pride and you can keep your
distance
I'm only wasting my time

Half passed three I haven't got a clue
I spent the whole night just burning for you

I'm tired of waking up shaking in the dark
Making up what you're gonna do
You can keep your pride you can keep your distance
I never wanted to get that from you
I've had enough of a tough situation
Driving me out of my mind
Oh you can keep your pride you can keep your distance
I'm only wasting my time
Oh baby
You can keep your pride you can keep your distance
I'm only wasting my time
