Slowly stars go out each night  
Dark meets light, kiss the sun goodnight  
New day comes as our life's just begun  
Your now mine

And every time you hold my hand  
There's an understanding of who I am  
New life is born unlike before  
I'm now yours

You can feel it in the summer breeze  
Tonight the world's at ease  
You are the one for me  
After all the waiting I can finally breathe  
Earth and skies say what they may  
I will love you all throughout my days  
Happiness happens when our hearts combine  
When it's you I'm with I come alive  
It's just so clear to see  
Darling we are meant to be

Your love is like amazing grace  
Sounds so sweet I can almost taste  
I've been given more what I could ever asked for  
I am yours

I can feel it in the summer breeze  
Tonight the world's at ease  
You are the one for me  
After all the waiting I can finally breathe  
Earth and skies say what they may  
I will love you all throughout my days  
Happiness happens when our hearts combine  
When it's you I'm with I come alive  
It's just so clear to see  
Darling we are meant

I feel at home whenever you around  
I feel so secure, so safe and sound  
What else can I say  
What else can I say

You are the one for me  
After all the waiting I can finally breathe  
Earth and skies say what they may  
I will love you all throughout my days  
Happiness happens when our hearts combine  
When it's you I'm with I come alive  
It's just so clear to see  
Darling we are meant  
Darling we are meant to be
