(Verse 1)

Home somewhere behind me
For miles that remind me
That nothing stays the same
Scenes outside my window
Soft as a pillow
Where memories fall like rain

(Chorus)

Maybe this road is taking
From where I was meant to be
Standing beside you
Making me smile through anything
Oh I never knew what was out there waiting
Directions are always changing
Alone in a crowd
So I turned around

(Verse 2)

You out in the distance
I'm skipping every exit to close
The space between
oh

(Chorus)

(Bridge)

I can't get to you fast enough
Wondering how I came this far without your love

(Chorus x2)
