I have a big gun
I took it from my lord
Sleep with justice
I just wanna feel you

I'm your angel
Only a ring away
You make me violate you
No matter who you are

It's all up to you
No one lives forever
Been burn in the hell
By all those pigs out there

It's always been hell
From when I was born
They make me violate them
No matter who they are

Get down on your knees
Get a good head on your shoulders
If it's for your guys
Go to the end of the earth
Do what you think
Give it with dedication
I'll put out your misery

Have no prayer
So, I keep the gun with me
For my safety
I'll do it with no sweat

They mean business
No time for sissy pig
Queen of ocean
Sing "the volga" to you

No need to think about it
You do it or you die
Those aren't tears
Don't let it trick on you

I am hard as steel
Get out of my way
Pay back all at once
Suck away the tender part

You made a mess
For christ sake, this rotten world
Shit out of luck
Go with my vision
Light up the fire
Right on the power
Weapon... I have it all

Get down on your knees
Get a good head on your shoulders
If it's for your guys
Go to the end of the earth
Do what you think
Give it with dedication
I'll put out your misery

You made a mess
For christ sake, this rotten world
Shit out of luck
Go with my vision
Light up the fire
Right on the power
Weapon... I have it all
