It's getting hot we blow the spot

Party's getting started, lights are getting low
Something is about to explode
Souls are shaken and hearts are taken around you,
yeah, yeah
Come a little closer, moving to the vibe
Show me that you're up for the ride
The bass is pumping and people jumping around you,
yeah, yeah

So, you got what it takes
Can you handle the case?
Then everything will be alright
Everybody's going
Down! Down! Down!

Bouncing getting it on to the music
We blow the spot
Bouncing, making it right while we cruising
It's getting hot we blow the spot

Cranking up the level speeding down the lane
Everybody's going insane
All the girls are flying, and the boys are trying around
you, yeah, yeah
Making our connections, talking through the eyes
Knowing that tonight is the night
And it feels so good, like I know it would around you,
ooh ooh ooh

So, you got what it takes
Can you handle the case?
Then everything will be alright
Everybody's going
Down! Down! Down!

Bouncing, getting it on to the music
We blow the spot
Bouncing, making it right while we cruising
It's getting hot we blow the spot!

Swing it, shake it
Sliding to the left
We're moving and kicking
Sliding to the right, come on

So, you got what it takes
Can you handle the case?
Then everything will be alright
Down! Down! Down!

Bouncing, getting it on to the music (To the music)
We blow the spot
Bouncing, making it right while we crusing
It's getting hot we blow the spot

Bouncing, getting it on to the music
We blow the spot (We blow the spot)
Bubbles making it right while we crusing
It's getting hot we blow the spot
