After the rain, I could see you crying
Suffer the pain, like a river drying
After the rain, you're hiding from the daylight

Deep in a groove, only walls around you
Nowhere to move, the state I found you
Deep in a groove, lonely in the cold night

You're not alone, you're not the only one who hurts
You're not alone, this is the moment of rebirth
I've seen your heartache, I feel the pain you hide inside
You're not alone, come let me hold you

Castle of sand, there were promises
The future was planned, you hang onto
A castle of sand, suffering from stage fright

You're not alone, you're not the only one who hurts
You're not alone, this is the moment of rebirth
I've seen your heartache, I feel the pain you hide inside
You're not alone, I stand beside you

(Now when you walk in the valley of darkness)
(And when you feel you've been left on your own)
(I will stand, I will wait right beside you)
(I will guide you home)

Come on home (come on home)

You're not alone (you're not alone)
You're not the only one who hurts
You're not alone (you're not alone)
This is the moment of rebirth
I've seen your heartache, I feel the pain you hide inside
You're not alone (you're not alone)
You're not alone

You're not alone
