There's a new world outside  
Your door and you don't  
New world outside your door  
And you don't recognize a thing  
A switch from a steady  
Depression to an anxiety attack  
To ask for thanks is proof  
Of needed brains that someone lacks

Would you wanna go around  
In that state of chain for life  
See you pick the lock the and before  
You're free you'll be running for a while  
I don't understand, you don't understand  
The solution that I bring  
I was hoping my help be praised  
And soon I'd hear you sing

Hallelujah new world  
Come dancing thru these streets  
With a message of love  
Hallelujah new world  
Now I see the days  
Before these were absurd

Is there a chance for something  
Good to come out of this  
The theory of Gap and Core  
It certainly exists  
Well, up and down and back and forth  
My mind has lost it's range  
A hungry monster coming on  
Or an unavoidable change

Hallelujah new world  
Come dancing thru these streets  
With a message of love  
Hallelujah new world  
Now I see the days  
Before these were absurd

I'm sorry I don't know enough  
To tell right from wrong  
In this chaotic mess  
Not sure anyone does  
But if, then tell me what's best

Hallelujah new world  
Come dancing thru these streets  
With a message of love  
Hallelujah new world  
Now I see the days  
Before these were absurd

Hallelujah new world  
Come dancing thru these streets  
With a message of love  
Hallelujah new world  
Now I see the days  
Before these were absurd

Hallelujah new world  
Come dancing thru these streets  
With a message of love  
Hallelujah new world  
Now I see the days  
Before these were absurd
