I was aiming for a new start  
On my own, feeling strong, ready to go, ready to be on  
top  
Your love left an echo in my heart  
Was it real, could it be you're just a dream about to part  
If I go, will I move forward  
If I go, will I be all right  
I can't go not knowing, not being sure  
Standing at your door

For better and for worse  
Say you let me in  
I just wanna feel you, baby  
For better and for worse  
Close against my skin  
I just wanna love you, love you, love you, love you

Overwhelmed by everything you've shown  
A little bruised, still confused, but ready to go into the  
unknown  
Letting go of the heavy storm  
All that grey, yesterday, please tell I don't have to do it  
on my own  
If I go, will I move forward  
If I go, will I be all right  
If I go, will you come with me  
I am yours to be

For better and for worse  
Say you let me in  
I just wanna feel you, baby  
For better and for worse  
Close against my skin  
I just wanna love you, love you, love you. love you

There's no point in looking back  
It's nothing there to see  
If you want this time to last  
Just be here and love me

(For better and for worse)

Say you let me in  
I just wanna feel you, baby  
For better and for worse  
Close against my skin  
I just wanna love you, love you

For better and for worse  
Say you let me in  
I just wanna feel you, baby  
For better and for worse  
Close against my skin  
I just wanna love you, love you, love you, love you
