My heart is screaming out your name

Night falls, my mind recalls the sound of your hard
breathing
Thoughts of your thousand kisses burning on my skin

I feel your desire as a moonlight lingers in the sky
I'm walking through fire, can't you hear me when I cry

One night of passion, one night of hunger
And my attraction is getting stronger
I need to feel you, I need to hold you
I can't deny 'cause my heart is screaming out your
name

My heart is screaming out your name

Tonight I won't be alone, doesn't mean that I'm not
lonely
One minute is like an hour until you come my way

I feel your desire as a moonlight lingers in the sky
I walking through fire, can't you hear me when I cry

One night of passion, one night of hunger
And my attraction is getting stronger
I need to feel you, I need to hold you
I can't deny 'cause my heart is screaming out your
name

My heart is screaming out your name

Every time you're not around
You're the thoughts within my mind
Hold me near, never fear
I'm right beside

One night of passion, one night of hunger
And my attraction is getting stronger
I need to feel you, I need to hold you
I can't deny 'cause my heart is screaming out your

name

One night of passion, one night of hunger
And my attraction is getting stronger
I need to feel you, I need to hold you
I can't deny 'cause my heart is screaming out your
name
