

## Melodyssey "Aquaplane"

Visit "[Aquaplane](#)" on MotoLyrics.com

I feel low, you move closer,  
Better be alright  
I've conquered my fear  
Now I'm hanging in alpha state  
Just about to swim down

Take me to that mountain  
And I'll meet you at the top  
I'm needing help and you're the person I'm thinking of  
Reaching out for your hand  
I'm afraid that it won't stop  
It doesn't matter  
I can hardly see you anyway

Now anyway-way-ay-ay.. alright..

Take me to that ocean  
And I'll meet you at the shore  
Swim through the blue abyss  
Your eyes watching over me  
Funny coz I don't think that I'm breathing anymore  
It doesn't matter, I can hardly see you anyway

I feel low, you move closer,  
Better be alright  
I've conquered my fear  
But if you leave me here  
Gonna swim back into the light

Sea of dreams  
Let it go, let it go  
Underneath,  
On the wrong side

Take me to that mountain  
And I'll meet you at the top  
I'm needing help and you're the person I'm thinking of  
Reaching out for your hand  
I'm afraid that it won't stop  
It doesn't matter  
I can hardly see you anyway

I feel low, you move closer,  
Better be alright  
I've conquered my fear  
But if you leave me here  
Gonna swim back into the light

Sea of dreams  
Let it go, let it go  
Underneath,  
On the wrong side

Sea of dreams  
Let it go, let it go  
I'll come up soon...(soon)

I'll come up soon, when I'm coming up soon (etc)  
I'll come up soon,  
**WHEN I'M COMING UP!**

Why don't you?  
Poor petrol in my eyes, burn  
Beckon I'm begging making you listen to me  
As I go down down  
What about this weakness?  
I can hardly see you anyway..

I feel low, you move closer,  
Better be alright  
I've conquered my fear  
But if you leave me here  
Gonna swim back into the light

Sea of dreams  
Let it go, let it go  
Underneath,  
On the wrong side

Sea of dreams  
Let it go, let it go  
I'll come up soon...
