I had a dream a nightmare
A suffered loss worth screaming
What I can do
Carry me through
Anything at all
Call on you
To make it right
I won't hurt you I'll try

With my blade I'll cut strings attached to you
'Cause I can't be without someone new
What I feel what I say
Talk to me
I can't feel I can't see any light

In your shell
You'll be fine

I'm not your knight
I'm your nightmare
I'm not your knight
I'm your nightmare tonight
