# "I Feel You Everywhere"

Visit "[I Feel You Everywhere](#)" on MotoLyrics.com

I feel you everywhere  
Anywhere I go I see you there  
Every time I turn around  
I hear that old familiar sound  
But you're not really there

Another lonely night  
I'll reach out for you in the soft moonlight  
As you come walking down the hall  
But it isn't you at all  
But I feel you everywhere

Chorus:  
I see your face up in the clouds  
I hear your voice calling loud  
My name on the wind  
It's never gonna end  
'Cause more than every now and then  
I feel you everywhere

I should let you go  
All my friends they call and tell me so  
That I should try my very best  
To lay your memory to rest  
But what do they know

Repeat chorus

I feel you everywhere

Is it ever gonna end  
'Cause I get lonely now and then  
And I feel you everywhere  
I feel you everywhere
