I came down to take you out
You were nowhere to be found
I searched this city in and out
I combed this entire town
But, I would do what I have to do just to hear that
purring sound
One wheel and some thrusting steel
You've never let me down

I lost what you gave me
I lost what you gave me, help me

Who found mister fabulous?
Not me, not me
Who got miss contagious?
Everybody

Put your fine in my windshield and take me right to jail
(but don't you throw away the key)
Sell your friends champagne corvette
Then come and post my bail
Now I hope they treat you well wherever you may be
(just don't let them hurt you)
If they only knew the felonies that were spread across
those seats

I came down to take you out
You were nowhere to be found
I searched this city in and out
I combed this entire town

Who found mister fabulous?
Not me, not me
Who got miss contagious?
Everybody
Who found sister steering wheel?
Got me, got me
Who got Mrs. raw deal?
Everybody

Why would you wanna sit at home tonight

When your ride is sitting right outside?
It's not very hard to find

Why would you wanna sit at home tonight
When your ride is sitting right outside?
It's not very hard to find

Who found mister fabulous?
Not me, not me
Who got miss contagious?
Everybody
Who found sister steering wheel?
Got me, got me
Who got Mrs. raw deal?
Everybody

Who found mister fabulous?
Not me, not me
Who got miss contagious?
Everybody
Who found sister steering wheel?
Got me, got me
Who got Mrs. raw deal?
Everybody

(Why would you wanna sit at home tonight
When your ride is sitting right outside?
It's not very hard to find)
