I'd like to take I like to feel wanted  
Taken up and take them tall  
I like to make a lot of generate the one-eyed mouse  
Build 'em up and let 'em fall  
Just lay 'em on and leave the linen tight  
Taken up and take them tall  
Generate, lay them flat like monkey man  
Leave 'em built, right, stand 'em tie them down  
It's like sin.

Boris likes a lot of little things to kick  
Mix every single one that he could ever need  
Boris feed  
Let friend, spoon, friend, stone, lie  
Let's make/take, let's feel wanted  
Taken up and take 'em tall  
My shake, mines monkey paddle  
Boris knows and Boris likes it all  
It's like sin.

It's a killer she's a killer maker  
It reaches in and takes from the back of your mind  
I'm not awake still alive  
20 bucks has the back and see the lines  
I got a small, got what they call the lack  
A lack o' halfway cooked bullets on my own  
I say I can't but I really mean I won't  
In their arm or maybe up a nose  
I see it all  
See Boris has way of seeing through my eyes  
He touches in a fashion, a master of mime  
Manipulating me, my arms and legs and spine  
He's got you pawed  
I'm sinkin shoulder wake like a spin on through  
Let 'em hum.
