NIGHT GOAT

She walk my way to fee
And I grut my teeth
It's more like hundred milo
And I know more me
But you can make my teeth growl
You can make my underwell
It's a big dark world now
It's a big dark Hell
Los sitar watch out for your tails
Like of course a timely man
Like a hog dance
Like a pig dare
Mind warp deceptor wan

Wait a minute I caught defouled
And I felt it groan
She meant to hold the bar down
And she cleaned my nose
I look so peaceful
And I look so underwell
I ain't got no mouthfull
I ain't got no tail
You look like such a worldly man
Like a sinner tossed on the wind
Like a hotel
Like a piston
Like a well old man a wan

Rock sides supports them would you wail
Like a tosser timely man
Like a hard descend
Like a cyst stone
Like a well worn dance stone why
