In your dreams  
The sights they submit  
These shadows will constantly glow.

Deeper you fall  
Into the pit  
Where madness will constantly flow.

Twisting your mind  
A vision obscure  
The islands will silently crawl  
(silently crawl)  
Into the unknown  
Sleep my child  
Sail the seas of neverland  
Deep within your soul  
Wayward child  
Morbid fears are close at hand.

Close your eyes  
The moment is here  
It's time to face what you fear.

Something weird, evil it senses  
Unseen but strong is it's presence  
Drowning in fear of things to come  
Time is short, the threshold is near.

Insanity reigns  
In dark hidden what's left  
Reality the outcome is clear  
(the outcome is clear)  
They are closing in.

Fade away - into the unknown.  
Fade away - sail the seas of neverland.  
Fade away - deep within your soul.  
Fade away - morbid fears are close at hand.
