Baby, if I coulda gave you every part of me
From head to toe ring, all my dreams
And everything that's in between

You don't even have to have a lot
Of all that bling, bling
You be without the doe and that's for sure
(Doe, sure)

I'm satisfied
I really want you in my life
Tell me what I'm gonna do
I can't eat sleep think

Breath without you
I wish you knew
That I can't eat sleep think
Breath without you

I watcha while you sleeping
Make believe you inside of me
I feel so outa line, wayin' down my spine
My legs hurt from the walls I climb

Why you gotta make me be so freaky
'Cause you know all about
And that's no doubt

I'm satisfied
I really want you in my life
Tell me what I'm gonna do
I can't eat sleep think

Breath without you
I wish you knew
That I can't eat sleep think
Breath without you

No question
I've been stressing
About all the things I feel
I feel for you

I'm giving you all of me
Every single part of me
I'm here to let you know
I love you and I'll never let you go

Tell me what I'm gonna do
I can't eat sleep think
Without you

I wish you knew
That I can't eat sleep think
Breath without you, ooo

Tell me, tell me, what I'm gonna do
I can't sleep without you
I can't eat sleep think
Breath without you

Hope is love
It brings me through

I wish you knew
That I can't eat sleep think
Breath without you
Without you

Tell me what I'm gonna do
I can't eat sleep think
Breath without you
