Come sail with me my friend, my love  
Let's leave this shadowed shoreline  
A silent night we left it all behind  
We are on our life's decline  
I sing to you this silent lullaby  
It's so peaceful, embraces you so  
Though we walked a thousand labyrinth  
You have never left my side

Up through the clouds  
I will follow you were ever you go  
And as you walk upon the water  
My heart starts to glow  
Our garden of memories unfold

Deep in our minds a vision is shown  
A glimmering garden of light  
Where we are now forever we'll stay  
We're honoured, our memory remain

In holy ground so deep we lay  
So near each others side  
With you my love I've found the way  
I'm forever blessed, forever blessed  
I've found my way

We have found our homeland  
A wasteland of glory we see  
Don't mourn what's left behind  
We enter this graceful place  
Our memory garden foretold
