

## Memphis May Fire "Legacy"

Visit "[Legacy](#)" on MotoLyrics.com

Chances to move mountains are few & far between,  
But only unseen by those who choose them to be.  
Live every day like it's your last chance to be heard &  
seen,  
Because the good die young & the great change the  
course of history.

Stop blending in & start speaking out!  
You'll never know what you can do if you don't try now.  
Lift up your eyes discouraged one.  
Keep moving forward until your battles have been won.

They say you were created to do great things,  
But words only come to life when you believe.  
Stop blending in.  
Start speaking out!  
Don't miss your opportunity.

Do you have the courage to follow your heart?  
Your life could be over before you ever had a chance to  
start.

Take what you can get while you can get it  
And don't let anybody stand in your way.  
If you've got what it takes, make them believe it.  
They need to hear you from a mile away!

They say you were created to do great things,  
But words only come to life when you believe.  
Stop blending in.  
Start speaking out!  
Don't miss your opportunity.

Lift up your eyes discouraged one.  
When you feel like giving up,  
When they say it can't be done  
It's up to you to show them why they're wrong.

Lift up your eyes discouraged one.  
When you feel like giving up,  
When they say it can't be done  
It's up to you to show them why they're wrong.

Lift up your eyes discouraged one.  
When you feel like giving up,  
When they say it can't be done  
Show them they're wrong!

What you do is up to you.  
Follow your heart & you will never lose.

They say you were created to do great things,  
But words only come to life when you believe!

You were created to do great things,  
But words only come to life when you believe.  
Stop blending in.  
Start speaking out!  
Don't miss your opportunity.

Reach for the sky!  
Nothing's impossible when you realize the strength is  
inside.  
Embrace the struggle when it's all you can see.  
Words only come to life when you believe.
