Yeah, yeah!

Fresh out the club, I'm on my way back to the mansion,  
You know where I'm from, you don't ever gotta ask this,

... yes I run my city, I run my city single handed.

If they'd made a movie about my life it would be a  
classic,

... we used to share a mattress.

Looking at me now you can see the contrast,  
When I'm chilling with a model from toronto...

So what do you need, cause you can have it,

... to bleed for what you're asking,

... we don't believe in second chances!

The way you put up... make me imagine,

But I'm not living the dream, I make it happen,

Don't even get between you and your status,

But since every night is a scene, I'm going in action.

I've got the meat and the cheese, let's make a  
sandwich

Just grab a... is the baddest.

Hopefully she got a swag as a... ,

But she could be whatever she want, except average.

Impressed...

Put a little something on your back is...

Luis vuitton and valentino collections,

... bitches I don't mess with,

I'm international, the niggers are domestic,...

And when it's over you can count me as a...

Cause every single loss in your life is a lesson.

I'm on, and I know I am,

And I ain't in nobody... cause I know my plan,

Winning first, winning second...

Cause I wanna fuck if I know I can

And yeah, you got a butt, but your soul is whack.

... but the soul is flat,...

Look, yeah, it feels kinda' tough,

And I don't hate you...

But still I play the game like...

Is it... you know, one-one?

And every generation had to do what I've done,

To the people I'm a hero unsung,

Good thing I don't want fame, I want fun,  
If they say my name...  
I've been through so much pain, I feel numb!  
America, my nigger I'm all one,  
For as long as the lord pumped air through his lungs.  
Tonight... the lord knows I'm...  
Until the day that he gave me something to work with,  
Open my eyes, he show me he wasn't worth it,  
Told me that if I... I fall on purpose,  
And it was hard to see... was a serpent,  
Going too fast to turn, a...  
Gotta apply the lesson that you learn,  
You should... get off earth dick!  
Got money, but you still feel worthless,  
Fuck like a porn star, pussy like a virgin...  
Cry me a river, I've never...  
The real is me is not...  
Most of the times she never been with this... nigger!  
And I... dream at this mother fucker nation!  
Come on, come on...  
... nigger hope you hear what I'm saying,...  
Learn the rules of the game that I'm playing,...  
Hope you hear what I'm saying,  
Either that, you should...  
Learn the rules to the game that you're playing,...  
It's a marathon nigga relax...
