(June Carter)

My love is not within my reach
And so I want this lonely beach
But stranger please don't bother me
I don't want your sympathy.

Go away stranger can't you see
You're only disturbing me
And my memories of yesterday
So stranger go away.

--- Instrumental ---

Are my tears entrancing you
Well, I don't remember inviting you
There's nothing you can do or say
You're not like him in anyway.

Go away stranger can't you see
You're only disturbing me
And my memories of yesterday
So stranger go away.

Please stranger go away...
