People say look at that girl don't you know she owns the world

She got a big long car a lot of money too

But I don't wanna be with me if you're not with me too

[fiddle - steel]

Fancy clothes she got diamond rings a pretty house

yeah all these things

People say she can't be blue

But I don't wanna be with me if you're not with me too

[harmonica - steel]

My fancy clothes my diamond rings my pretty house

yeah all these things

I'd give them all up for you

I don't wanna be with me if you're not with me too

Well I don't wanna be with me if you're not with me too
