(Neal Matthews - Gordon Stoker)

It's like taking all the joy life has to offer
And multiplying all of it by two
It's like adding eight more colors to the rainbow
I'm so glad I fell in love with you.

It's like drinking from a fountain overflowing
With happiness and dreams that all come true
It's like finding all the gold in California
I'm so glad I fell in love with you.

It's a lonely lonely world for a heart without a home
But it turns into a heaven when the right one comes
along
Now I wake up to a dream come true each morning
And a world designed especially for two
It took your love to make my life worth living
I'm so glad I fell in love with you.

Oh, I'm so glad I fell in love with you...
