(Byron R. Walls)

No one could ever steal the joy that we both feel
What more than tons of gold this precious love we
know
Through stormy wind and rain our feelings still won't
change
No words have ever told this precious love we know.

A sweeter someone this world could never find
Oh, our love will go on till the end of time
In each and every day our love is here to stay
It can't be bought or sold this precious love we know.

--- Instrumental ---

In each and every day our love is here to stay
It can't be bought or sold this precious love we know...
