(Johnny Carver)

Everywhere I go everyone I know
Seems to remind me that you are gone
Nothing that I do is the same without you
It just reminds me that you are gone.

Can someone see how I cry
Does anyone care if I live or die
Everytime I find love it's the same not real love
It just reminds me that you are gone.

--- Instrumental ---

It just reminds me that you are gone.

Can someone see how I cry
Does anyone care if I live or die
Everytime I find love it's the same not real love
It just reminds me that you are gone.

It just reminds me that you are gone...
