

## Connie Smith "Your Light"

Visit "[Your Light](#)" on MotoLyrics.com

I was thinking that love had turned its back on me  
I was hurting inside in places that you can't see  
Then I finally made up my mind just to let it go  
That if love didn't want me, I didn't want love anymore

That's when your light came shining  
That's when your light came shining  
That's when your light came shining on me

Once in a while, it could be any time of the day  
I get this deep lonesome feeling that just won't go  
away  
That's when I get to thinking, I'm losing control  
And if it's gonna be like this, why should I try anymore?

That's when your light come shining  
That's when your light come shining  
That's when your light come shining on me

When darkness fall, shadows call and the blues hang  
around  
Around my heart like a chain dragging me down

That's when your light come shining  
That's when your light come shining  
That's when your light come shining on me

That's when your light come shining  
That's when your light come shining  
That's when your light come shining on me
