"Sell Your Money"

Visit "[Sell Your Money](#)" on MotoLyrics.com

I bet your bed sees no action
But keeps long lasting transactions while you sleep
Can calculate every fraction so perfectly
But you don't have to do that math with me

I'm so sorry thinking's got the best of me
I didn't mean to be nearly that obscene

All talk and no dancing
Your numbers coming coming up
(Keep on talking man keep on talking until you head
explodes)

I see your feet are moving
But you're not even catching up
(Keep on talking man keep on talking until your
money's sold)

So put your mouth where your mouth is
Cause lord knows it's where your rhythm is
(Not where your cash goes)
Just wanna watch all the mouths you feed (everybody)
File out and run you down like a stampede

I'm so sorry thinking's got the best of me
I didn't mean to be nearly that obscene

All talk and no dancing
Your numbers coming coming up
(Keep on talking man keep on talking until you head
explodes)

I see your feet are moving
But you're not even catching up
(Keep on talking man keep on talking until your
money's sold)

(Put your money away
Put your money away
Put your money away
Put your money away)

Put your money away
Put your money away
Put your money away
Put your money away

This is the new collection for the new congregation
This is the new collection for the new congregation

I'm so sorry thinking's got the best of me
I didn't mean to be nearly that obscene

I'm so sorry thinking's got the best of me
I didn't mean to be, no

Yeah, yeah, yeah
Yeah, yeah

(Keep on talking man keep on talking until you head
explodes)

Yeah, yeah, yeah
Yeah, yeah, yeah

(Keep on talking man keep on talking until your
money's sold)

All talk and no dancing
Your numbers coming coming up
(Keep on talking man keep on talking until you head
explodes)

I see your feet are moving
But you're not even catching up
(Keep on talking man keep on talking until your
money's sold)

Keep on talking man keep on talking until your money's
sold
