I've been watching you from here
Hoping that you'll overhear
My heart, it beats loud and clear
It's all, it's all for you
Anything I try and be
You can't help but oversee
Why can't you believe in me
You're blind, you're blind off of me

Pre Chorus:

You know I want you
Been trying every
Way that I could do
Trying my best to prove
That I'm good for you
But as I face the truth
No it will never be you

Chorus:

I've been trying, trying, trying to be strong
But I, I, I was so wrong
Lying, lying to myself is all I do
Cause you've been doing this to me for so long

I came marching in this war
Cause fighting makes me want you more
Please don't go and prove me wrong
Girl can't you see that I love you

Pre Chorus:

You know I want you
Been trying every
Way that I could do
Trying my best to prove
That I'm good for you
But as I face the truth
No it will never be you

2 x Chorus:

I've been trying, trying, trying to be strong
But I, I, I was so wrong

Lying, lying to myself is all I do
Cause you've been doing this to me for so long

AnthMelo verse:

"Well I been trying, tryin,
You keep denying, denying,
Somebody hit the sirens, sirens,
Feels like I'm dying, dying,
And it's only gonna take you to save me,
I haven't really believed in myself lately,
And I know your friends say he too crazy,
But can't you see,
That's how you made me
Trying to be strong,
Trying to keep on,
I don't even know what I'm doing wrong,
But I know that there aint no man
Who's gonna love you like I can,
So when you feel lost with your navigation,
Any problem that together we facing,
Me plus you perfect equation,
Until then baby I'm here waiting

[2 x Chorus:]
