"Corrupted"

Visit "[Corrupted](#)" on [MotoLyrics.com](#)

Verse:

We walk alone through this wasteland
Rising from the ashes of the world you destroyed
Ruins and fire all around us
We're here to rebuild what you took down
Am I the only one who sees something's wrong
Have you been ingoring the facts all along

Chorus:

With trust from our broken souls
We walk through the valley of shadows
The answers are beyond our reach
We're falling deeper within

Verse:

Now tell what did you think I would do?
I see you spreading this plague all around you
Contaminating everything that was pure
So what the fuck should I spare your life for
Please tell me what is going on
When did it all become so wrong

Chorus:

With trust from our broken souls
We walk through the valley of shadows
The answers are beyond our reach
We're falling deeper within

Break

Solo

Chorus(x2):

With trust from our broken souls
We walk through the valley of shadows
The answers are beyond our reach
We're falling deeper within
