Somebody save me, come on, come on.  
Come on, come on  
Why don't you bring some, why won't you come?  
Why won't you come  
Somebody save me, come on, come on.  
Come on, come on  
Come on, come on

I heard what you've been saying, and I don't like it  
much.  
If I had my way you know what I'd do.  
I'd leave you there, cold to the touch.  
Because when I called, you just blew me off.  
You just blew me off.

Somebody save me, come on, come on.  
Come on, come on  
Why don't you bring some, why won't you come?

Why won't you come  
Somebody save me, come on, come on.  
Come on, come on  
Come on, come on

I've come to the edge, and can't take that much.  
You never thought about what we had..  
I loved you so much, and now I'm falling  
I'm about to fall.. I'm about to fall.

Somebody save me, come on, come on.  
Come on, come on  
Why don't you bring some, why won't you come?  
Why won't you come  
Somebody save me, come on, come on.  
Come on, come on  
Come on, come on
