

Mention "Strange World"

Visit "[Strange World](#)" on MotoLyrics.com

Walking through strange new world
Feel so weird walking through
Distant clouds do appear
Makes the sky blue tonight...

I can't remember feeling strong
Just for a while ago...
Burning sensations feelings thoughts
Flying alone this night...

When I walk inside my soul
Lost in such a strange new world
Open up the gateway door
You will have to wait no more...

When I walk inside my soul
Pleasures are hidden in this world
Open up the gateway door
Riding beyond this strange new world...

Stranger close your blue eyes
Look inside your own mind
See the lives and the fears
Controlled by fears so dark...

I can't remember feeling strong
Just for a while ago...
Burning sensations feelings thoughts
Flying alone this night...

When I walk inside my soul
Lost in such a strange new world
Open up the gateway door
You will have to wait no more...

When I walk inside my soul
Pleasures are hidden in this world
Open up the gateway door
Riding beyond this strange new world...
