Thou touchedst my soul as I lay wounded  
Thus, my will Thou didst not fear  
Thy mortal eyes beheld my secret  
My tears I'll dedicate to her

As destiny must be fulfilled  
By mortal hands we shall be killed

So much hate to give  
Since I became the enemy  
I promised once to not forgive

My tears are now of dignity  
That pours throughout conspiracy  
Art Thou the one I once called me?

She took my name and kept it  
Inside her sacred poisonous heart  
Vergeltung allein ist mein Vermaechtnis  
Damit die Welt uns nie vergisst

This promise I give shall  
By the truth of death be sworn  
Eternity shall be my witness  
Lay all Thy all darkness into my arms

The essence of soulstream  
Far beyond redemption  
The truth which in Thy heart doth lie  
Hath led us to extinction

Death is the path of creation  
Denied to be granted to Thee
