Pestilence epidemic of hate  
Betrayed by friend, master of lies  
Besiege the masses  
Forbid bigotry, no need to start again  
Freak nature has taken his mind  
Lost in society's pace  
Growth of violence, lack of thought  
Leading to horror, anger dispelled

Pacifist needed to judge the accused  
Sentenced to life, sinner gone to hell  
Fallen psychotic reasons  
Destiny prison entombed

Expel fools for pain and suffering  
A felon with evil on his mind  
Furlough the wrong way out  
No one to suffer again

Pacifist needed to judge the accused  
Sentenced to life, sinner gone to hell  
Fallen psychotic reasons  
Destiny prison entombed

Creator, creator  
Understand how I feel, I want this man to die  
Creator, creator  
He takes all these lives, just an eye for an eye  
Besiege the masses  
Besiege the masses  
Besiege all the masses
