

Merauder **"Master Killer"**

Visit "[Master Killer](#)" on MotoLyrics.com

In time my wounds will heal - as they give your name
Rivals meeting face to face - fate sealed, you bow
down in shame
Run, run, you run so far - escape to nowhere
I smell the path you've fled - turn your head you're
dead

I am the master killer - fall to me
Pray for a way out which you can't see
I the master killer - strike you down
Can't be defeated, I own the crown

Your solemn sanctuary has become mine
Crawl upon your victims - see the tears of fear in their
eyes
Watch them bleed, see as they writhe in pain
No one will answer
I've taken your mind and soul
Only escape is your fucking grave

I am the master killer - fall to me
Pray for a way out which you can't see
I the master killer - strike you down
Can't be detected, I own the crown

The end has come for you at the cost of your life
Now I stand atop the mountain, my killings have no end
in sight

I am the master killer - fall to me
Pray for a way out which you can't see
I the master killer - strike you down
Can't be detected, I own the crown
