Sunday night  
Sunday night  
The killer of the week  
Sunday night  
Sunday night  
The killer of the week  
Sunday night  
I've finally found  
I've finally found  
Something to plug up this snorry mouth  
Since the day ['cause today?] she said to me (she saw  
slee smore)  
This house moves more than you (show so snow)  
So I tell her I sleep (so so still snore)  
To keep from thinking it through (bless me)  
Now it's all I can do (\_\_\_shovel snow \_\_\_)  
When you pull the sheets up overhead (sometimes so  
you know)  
And she sends me out  
To shove snow drifts in my bed (she sings sun she  
snore)  
You'll reach for the door  
Arms feel weak  
You'll make a mistake  
And fly fly ahead  
And it's all I can do  
When you pull the sheets up overhead  
And send me out  
To shove snow drifts in my bed  
Today she said to me (sneer snore seer soar)  
Wanna get even with you more (sneer snore seer soar)  
So I tell her she can (so show sea shore)  
Even more than before (full mouth sneer roar)  
You'll reach for the door  
And your arms feel weak  
You'll make a mistake  
And fly fly ahead  
And it's all I can do  
When you pull the sheets up overhead  
And send me out  
To shove snow drifts in my bed

I've finally found  
I've finally found  
Something to plug up this snorry mouth  
-?- see the sight  
Posts [puffs?] around my bed  
You thrust up and down  
Arms around my head  
Pressures not mine  
Both in spirit and time  
Whisper wine  
I've finally found  
I've finally found  
Something to plug up this snorry mouth  
So I bet she says to me (so show sneer snore)  
Need to see [to my side?] (seal the sown shear stone)  
But by the time I made the bed (sneer snore sheer  
shore)  
Till you made up your mind (so so so so)  
You'll reach for the door  
Arms feel weak  
You'll make a mistake  
And fly fly ahead  
And it's all I can do  
When you pull the sheets up overhead  
And send me out  
To shove snow drifts in my bed  
I've finally found  
I've finally found  
Something to plug up this snorry mouth  
I've finally found  
I've finally found  
Something to plug up this snorry mouth  
This snorry mouth ( x 16 )
