So you come dripping from the hive
Glittering as you arrive
High half as long and twice as bright
See you burning from both sides (from both sides) [x2]

You come slipping down the slide
Dragging me by your side
Phony colors in your eyes
Soul's obscene but I don't mind (I don't mind)
You're so obscene but I don't mind (don't mind)
Yea yea yea yea yea yea

You come whipping [ripping?] through my life
Flipping out like some old wife
Your syringe mouth is open wide
You go insane I go inside
