Finding out what it's all about

In your eyes I know

Need a way to figure out

Going for the flow

Enough is to me

Release is all I need to know

Funny how - say you go without

Interesting to know

Now your down and there's no way out

Got to let it go

Enough is to me

Release is all you need to show

Burning the broken views that some abuse to get their way

And I've never gone so far, in not so long but that's okay

Never been so far away from myself, but I'm right here

Got it now, I need it more

Finally now, got it all worked out

Information grows

Nothing wrong, with it all along

God it took so long

Enough is to me

Release is all you need to show

Burning the broken views that some abuse to get their way

And I've never gone so far in not so long but that's okay

Never been so far away from myself, but I'm right here

Got it now, I need it more

Wait for me

Break for me

Wait for me

How can you see?

Wait for me

Break for me

Wait for me

How can you see?

Burning the broken views that some abuse to get their way

And I've never gone so far in not so long but that's okay

Never been so far away from myself, but I'm right here

Got it now, I need it more

Wait for me

Break for me

Wait for me

How can you see?

Wait for me

Break for me

Wait for me

How can you see?
