"Over"

Nothing, was real, i wanted
Something, to feel, so jaded

Somehow, they breathe, i'm choking
Seek out, release, from love that

Another day
Another way
Another message you've erased
And whose to know where i belong
And where i'll find you then

This part, of me, you've taken
I ain't real, my dreams, awaken

Another day
Another way
Another message you've erased
And whose to know where i belong
And where i'll find you then

[Guitar Solo]

Another day
Another way
Another message you've erased
And whose to know where i belong
And where i'll find you then

Another day
Another way
Another message you've erased
And whose to know where i belong
And where i'll find you then!
